MEMORANDUM FOR THE RECORD

The Director called this morning from Palm Springs and was briefed on the following:

25X1C

1. [REDACTED]

2. Although not 100% certain, preparations are being made for CORONA shot today at 6 p.m. EST.

3. Indications that the MIG-21's in Cuba are being transferred to the Cuban Air Force. We figure it would take one to two months for a qualified MIG-15 pilot to be checked out in MIG-21. Castro's admittance that Floridian was fired on by mistake seems to have caught Soviets out on a limb. Tass had been reporting that US was fabricating its claim of attack. Havana radio yesterday claims US reconnaissance planes were relaying Soviet ships locations to commando units. DDP report that Castro will visit Algeria in connection with planned visit to Moscow for May Day celebrations.

5. Reports conflict but seem to indicate that Arevalo has arrived in Guatemala. More reports that Guatemalan army will mount coup. [REDACTED]

[REDACTED] signs that Ydigoras is playing a double game and is cooperating with Arevalo.

25X1C

6. Situation in Brazil. Unrest growing out of Governor Lacerda's recent action in preventing meeting of Cuban solidarity Congress. Federal troops occupying key points in Rio. If general strike ensues La Cerda might be forced to ask for collaboration of federal troops to insure order.
